

Hello! you'll find in this diagram all the resources you need to watch/read in order to prepare for the Quiz.  
Remember that your mark will let you access - or not - the pitch, and thus, the validation of this unit, which is a roadblock for the year.  
The notions have been displayed in such a way to show the path through discovery, some elements do not have hyperlinks: just follow serendipity and find out more by yourself.  
All the answers to the quiz are presented in the resources with hyperlinks, but your own research shall be a good way to prepare your pitch, with your own research.
